

## Project Planning Phase

### Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

|               |  |
|---------------|--|
| Date          | 22 February 2026   |
| Team ID       | LTVIP2026TMIDS35939  |
| Project Name  | Plugging into the Future: An Exploration of Electricity Consumption Patterns Using Tableau |
| Maximum Marks | 8 Marks  |

### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task   | Story Points | Priority | Team Members     |
|----------|-------------------------------|-------------------|---|--------------|----------|------------------|
| Sprint-1 | Data Collection & Preparation | USN-1             | As an analyst, I can import electricity consumption data into Tableau.                    | 3            | High     | Maddala Poojitha |
| Sprint-1 | Data Cleaning                 | USN-2             | As an analyst, I can clean and structure the dataset (Year, Month, Region, State, Usage). | 3            | High     | Arlagadda Harika |
| Sprint-2 | Dashboard Creation            | USN-3             | As a user, I can view year-wise electricity consumption using bar charts.                 | 5            | High     | Maddala Poojitha |
| Sprint-2 | Trend Analysis                | USN-4             | As a user, I can analyze monthly trends using line charts.                                | 3            | Medium   | S Mithra Sree    |
| Sprint-3 | Filter Integration            | USN-5             | As a user, I can filter data by Year, Region, and State.                                  | 3            | High     | Pardhasaradhi T  |
| Sprint-3 | Top/Bottom Analysis           | USN-6             | As a user, I can view Top N and Bottom N states based on usage.                           | 3            | Medium   | Kesam Devi       |
| Sprint-4 | Story & Final                 | USN-7             | As a user, I can view insights in story   | 4            | High     | Maddala Poojitha |

| Sprint | Functional Requirement (Epic) | User Story Number | User Story / Task                | Story Points | Priority | Team Members |
|--------|-------------------------------|-------------------|----------------------------------|--------------|----------|--------------|
|        | Presentation                  |                   | format for better understanding. |              |          |              |

### Project Tracker, Velocity & Burndown Chart: (4 Marks)

| Sprint   | Total Story Points | Duration | Sprint Start Date | Sprint End Date (Planned) | Story Points Completed (as on Planned End Date) | Sprint Release Date (Actual) |
|----------|--------------------|----------|-------------------|---------------------------|---|------------------------------|
| Sprint-1 | 6                  | 6 Days   | 15 Jan 2026       | 20 Jan 2026               | 6   | 20 Jan 2026                  |
| Sprint-2 | 8                  | 6 Days   | 21 Jan 2026       | 28 Jan 2026               | 8   | 28 Jan 2026                  |
| Sprint-3 | 6                  | 6 Days   | 29 Jan 2026       | 3 Feb 2026                | 6   | 3 Feb 2026                   |
| Sprint-4 | 4                  | 6 Days   | 4 Feb 2026        | 7 Feb 2026                | 4   | 7 Feb 2026                   |

#### Velocity:

Total Story Points Completed = 24

Number of Sprints = 4

Average Velocity =  $24 \div 4 = 6$  Story Points per Sprint

If sprint duration = 6 days

Velocity per day =  $6 \div 6 = 1$  Story Point per Day

## **Burndown Chart:**

A Burndown Chart was used to track the remaining work against time during each sprint. The chart shows the ideal work completion line and the actual progress line. The project maintained steady progress, and story points were completed within the planned sprint duration, indicating effective sprint planning and execution.
